1	Dr.Filzah memberi tunjuk ajar yang padat dan berkesan. 10Q Prof
2	Dr Filzah is very good lecturer and well verse on her subject matter. I learned a lot from her for this subject.
3	
4	As overall, the course provided a good learning ground for DBA students to prepare for the final dissertation project. Eventhough the course focused very much on the marketing, the flow and contents of conceptual and research papers were included and clearly explained. The course provided a greater insights on what to expect in the final research. The interlink of independent variables, dependent variables, moderators, mediators and antecedents were clearly explained to the students. I have much better understanding of the concepts after the course.
5	
6	Dear Prof, I enjoy you class so much. Thanks for coming all the way from Sintok to guide us and to share part of your vast knowledge with us. It's a waste that only 6 meetings we have before our final examinations. Time is SO SHORT to learn more from you. Apart from being a duty as a lecturer, you are a great mother to us as well. You are strict, but i just love your way of conducting the classes. Thumbs up for you Prof. May we have a chance to meet again in the next subject, and thank you for guiding me to create a framework in my first semester.
